Experience

The RockCreek Group, *Washington, DC*   Feb 2023 - Feb 2024
Research Associate, Office of the CEO

- Contributed regular written analysis and visuals on timely macroeconomic developments, energy transition investment trends, and financial markets for 30 white papers and 4 quarterly commentaries
- Leveraged R, Bloomberg Terminal, and SQL to analyze large datasets and present insights into market trends to senior management, current clients, and prospective clients
- Conducted quantitative and qualitative analysis on potential investments within the global macro opportunity set as a part of the firm's $4 billion hedge fund mandate
- Created, compiled, and arranged briefing materials for CEO Afsaneh Beschloss for speaker invitation series, television interviews, and other external events
- Coordinated communications for the Office, increasing reader engagement by 30% for weekly insights and commentary letters sent to more than 5,000 subscribers

Federal Reserve Board of Governors, *Washington, DC*   Feb 2016 - Jan 2023
Financial Analyst, Division of International Finance, Jun 2018 - Jan 2023

- Developed dynamic programs in SAS, R, STATA, and Matlab to combine multiple data sources for enhanced monitoring and analysis of financial system developments
- Served as subject-matter expert for System-wide access and use of the Bank for International Settlements (BIS) statistics to enhance analysis of financial stability, monetary spillovers, and global liquidity across banking sectors
- Drafted regular notes on recent developments in European financial markets, central bank climate change actions, and other ad hoc international finance topics for pre-FOMC meetings
- Co-authored and presented "What are Large Global Banks Doing About Climate Change?", which analyzes actions and policies of the 30 G-SIBs, including risk management, financing, and governance
- Trained and supported 8 research assistants on programming techniques and data analysis

Visiting Financial Analyst, Division of Financial Stability, Mar 2021 - Sep 2021

- Co-authored the November 2021 Financial Stability Report (FSR) Box "Retail Investors, Social Media, and Equity Trading", which examined the January 2021 "meme stock" phenomenon and its impact on markets
- Led the documentation project for the FSR, coordinating efforts across 4 divisions and 30 analysts to catalogue data and figures that were included in its publication
- Prepared materials for the Board's representative to the Financial Stability Board Analytical Group on Vulnerabilities

Financial Systems Analyst, Division of Information Technology, Feb 2016 - May 2018

- Lead analyst for the collection, management, and analysis of bank Call reports (FFIEC 031/041/051) and non-bank domestic finance company report on assets and liabilities (FR2248)
- Led the Quinquennial data collection project, a survey of more than 5,000 US finance companies conducted every five years to enhance the analysis of consumer credit trends
- Monitored developments of regulatory and supervisory policies on domestic bank activity
